RE: Public Meeting – Dorothea Drive Culvert Replacement

Dear Resident(s):

The City of Raleigh Stormwater Management Division is hosting a public meeting to discuss the current status of the Dorothea Drive Culvert Replacement Project. The public meeting will be held on **Wednesday, November 1, 2017 at 6:30 p.m. at the Chavis Community Center located at 505 Martin Luther King, Jr. Blvd.** The purpose of this meeting is to discuss preliminary design considerations for the replacement of the aging stormwater infrastructure on Dorothea Drive. City staff also will provide residents with information about the project plan, including a breakdown of the project's design and construction schedule.

The current design proposed for this project will address the structural concerns with the culvert and alleviate the localized flooding in the area caused by the existing culvert. The project also will eliminate existing public utility concerns and allow this section of Dorothea Drive to meet current roadway design standards.

We look forward to seeing you at the upcoming meeting and addressing your questions and concerns about this project. If you require additional information or are unable to attend this meeting, please contact me at 919-996-4006 or todd.rall@raleighnc.gov. More information about the project is available at www.raleighnc.gov by searching "Dorothea Drive Culvert Replacement."

Sincerely,

Todd Rall
